Goals and Objectives of the Presentation:
Objective: To examine different ways leadership education has historically been accomplished, compare with current formats of leadership education and vision on future leadership education opportunities.

Goals: The workshop goal is to have participates leave filled with innovative ideas and inspiring techniques to be used for developing challenging and productive programs for future leaders.

Outline of Presentation:

1. Interactive icebreaker game

2. Participants share different workshops that people have attended and/or conducted in the past what they liked and what they did not like. What seemed to work and what did not and why.

3. Look at current innovative ideas for educating our future leaders, including, physical challenge courses, books, role playing, movies, puzzles and games.

4. Vision new ways to educate our future leaders utilizing the Internet, computer based interactive training and testing, video, and more.

5. Review and Process

Time: 90 minutes
