Abstract

An abstract is a brief summary of your paper, allowing reviewers to quickly understand the main points and purpose of your work. Please limit the abstract to 125 words.

Introduction

Although guidelines of the American Psychological Association (APA) indicate an introduction should begin on a new page (APA, 2010), we prefer that you place it on the same page as the abstract. Accordingly, it may be appropriate to use an “Introduction” heading to distinguish this section from the abstract.

In general, the manuscript should adhere to the following guidelines:

- Full narrative no more than 12 pages. References and appendices may extend beyond.
- 1 inch margin left, right, top and bottom
- No headers or footers
- Font is 12-point Times New Roman
- Paragraphs flush left, with no indenting or tabbing
- Single-spaced text
- Paragraphs separated by a blank line
- Headings centered with blank line above and below
- Inclusion of tables and figures is encouraged
- Do not use footnotes or endnotes; rather, include the material in the body of the text
- Remove all personally identifying information, including author names and institutions ([Author], 2013)
- Follow the *Publication Manual of the American Psychological Association* (6th edition), except as directed

Literature Review

The literature review should review relevant scholarship related to the research paper proposal explicitly listing research questions, hypotheses, or goals.

Theoretical/Conceptual Framework

This section should include theoretical and/or conceptual framework(s) used for the research study. This framework should provide a context for interpretation of research findings.

Methods

This section should briefly describe the methods incorporated within your research. We suggest considering specific sections that focus on samples, procedures, instruments, and/or data analytic techniques.

Results

Please follow APA 6th edition guidelines related to the use of tables and figures within your research paper proposal. This could include either empirical or assessment data.

Discussion/Recommendations/Conclusion

In addition to a discussion of results, we suggest including sections that discuss implications, limitations, and future directions in practice and/or research that may stem from your research paper.

References

The reference list that follows is a mock list. According to APA style, the reference list should include entries for all in-text citations. Material that was not mentioned in the narrative should be omitted from the reference list. Please include DOI information for all article references for which this information exists.

EDUCATOR WORKSHOPS

Educator Workshops CFP:

3) **Educator Workshops:** Educator Workshops provide the opportunity for a longer, more in-depth experience and active participation around an innovative educational or leadership development practice (co-curricular or curricular) or a teaching and learning tool. It is preferred that this is a strategy that has been used in practice (not an idea), and provides a value in two ways: (a) as a professional development to the participants; and (b) as a best-practice strategy participants could implement into their own programs, classrooms, or contexts. Proposals may be up to eight (8) pages single-spaced (not including references), and up to four (4) additional pages of handouts/reference material to be reviewed with the proposal.

Please note that Educator Workshops are intended to be interactive in nature, where participants have the opportunity to participate in an activity or discussion throughout the session; therefore, additional weight of consideration will be given to evaluation item 4: *Lesson Plan Description and Logistics* (see evaluation rubric below).

Educator workshop proposals should include:

- Abstract
- Introduction (Clear issue statement and learner objectives)
- Review of Related Scholarship (Brief background to the issue or idea; including connection to leadership and pedagogical theory/literature)
- Lesson Plan Description (A clear plan of detailing the steps of activity. How will you demonstrate or model this activity for conference participants?)
- Discussion of Outcomes/Results (Experience with the practice and results to date. This could include either empirical or assessment data.)
- Workshop Implications (What are the foreseeable benefits to participants and potential for application?)
- References
- Appendices (Handouts or Additional Materials-up to four pages of handouts/reference material to be reviewed with the proposal)

For questions regarding Educator Workshops, please contact Matt Creasy at mcreasy@udel.edu.

Accordingly, **Practice Posters** should introduce, share, or describe interesting practice or programs in the field of leadership education. **Research Posters** should introduce speculative, late-breaking results in an emerging or existing leadership research project. A Note about Poster Session Judging

The Poster Session will provide authors and participants the ability to network with other like-minded leadership educators/researchers and engage in discussions about their work in an informal setting. When a poster is accepted, participants will be able to request a Poster Mentor (PM). The PM will be an ALE member that is an expert in the field. The PM will attend the poster session and collaboratively engage the author(s) regarding the content of the poster to advance the program or research to a new level.

Posters will be judged in three categories (#2 and #3 are done on-site at the conference):

- 1) Overall Poster Proposal Quality
- 2) Professional Presentation of Content
- 3) Communication with Presenter

For questions regarding Practice & Research Posters, please contact Beth Foreman at bforeman@iastate.edu.

Roundtable Discussions CFP:

5) Roundtables aspire to facilitate dialogue by field-specific experts about a topical area of leadership education. Roundtables allow attendees to discuss and share ideas with each other on a topic of shared interest with the aid of a facilitator. Roundtable sessions will be 45 minutes in length and grouped together by themes. Examples of themed roundtables include (but are not limited to) teaching and learning, assessment and evaluation, innovations in agriculture leadership, community and/or youth leadership development, and implications for student affairs practice.

There will be two roundtable sessions available to attend. Each session will last 45 minutes. Therefore, facilitators and experts should provide a brief background and context of the topic, then facilitate an engaging conversation with participants during one 45-minute roundtable session presentation. Examples of past roundtables include accreditation of leadership programs, leadership in student affairs, experiential leadership learning opportunities, and community and youth development/education.

Roundtable proposals linked to the conference theme are encouraged. Roundtable Discussion proposal submissions should include the following section headings and are limited to three (3) pages, not including tables, figures, and references. Submissions should be single spaced with double-spacing between paragraphs. Suggested headings/sections include:

- Abstract
- Introduction (including learner/participant objectives)
- Background (including connection to leadership literature/theory)
- Means for Discussion/Interaction
- Foreseeable Implications of Discussion
- References
