

## INNOVATIVE PRACTICE PAPERS

### **Innovative Practice Paper CFP:**

**2) Innovative Practice Paper Sessions:** Innovative practice paper sessions provide the opportunity for a shorter, to the point, discussion of a project, program, or practice tool/strategy (including case studies). The maximum length for an innovative practice paper is six (6) typed single-spaced pages (not including references), with up to four (4) additional pages of handouts or additional materials to be reviewed with the proposal. Potential practice topics include, but are not limited to, the following:

- Community leadership development
- Youth leadership development/education
- Teaching and learning
- Development, assessment and evaluation of leadership programs
- Global and intercultural capacity-building
- The role of students in leadership education
- Student affairs/academic affairs collaboration in leadership education

Innovative Practice Paper Session submissions should include:

- Abstract
- Introduction (Clear issue statement and learner objectives)
- Review of Related Scholarship (Background to the issue or idea that includes connection to leadership and pedagogical theory/literature)
- Description of the Practice (Overview of practice)
- Discussion of Outcomes/Results (Experience with practice and results to date, which may include assessment or evaluation data.)
- Reflections of the Practitioner
- Recommendations
- References
- Appendices (Optional)

Preference for acceptance will be for practice papers that demonstrate a project, program or tool that has been implemented. These sessions will be presented in 1.5 hour sessions (3 per session; 30 minutes each).

## **Innovative Practice Paper Session Template:**

### **Innovative Practice Paper Title: Centered, Boldface, and Title Case**

#### **Abstract**

An abstract is a brief summary of your paper, allowing reviewers to quickly understand the main points and purpose of your work. Please limit the abstract to 125 words.

#### **Introduction**

Although guidelines of the American Psychological Association (APA) indicate an introduction should begin on a new page (APA, 2010), we prefer that you place it on the same page as the abstract. Accordingly, it may be appropriate to use an “Introduction” heading to distinguish this section from the abstract.

In general, the manuscript should adhere to the following guidelines:

- Full narrative no more than six (6) pages; references and appendices may extend beyond.
- 1 inch margin left, right, top and bottom
- No headers or footers
- Font is 12-point Times New Roman
- Paragraphs flush left, with no indenting or tabbing
- Single-spaced text
- Paragraphs separated by a blank line
- Headings centered with blank line above and below
- Inclusion of tables and figures is encouraged
- Do not use footnotes or endnotes; rather, include the material in the body of the text
- Remove all personally identifying information, including author names and institutions ([Author], 2013)
- Follow the *Publication Manual of the American Psychological Association* (6th edition), except as directed

The introduction should define the problem to be examined and explain the parameters or limitations of the situation. It should stimulate interest in the subject and remainder of the manuscript.

#### **Review of Related Scholarship**

This section should highlight the connection to leadership and/or pedagogical literature/theory.

#### **Description of the Practice**

This section is the place to highlight clear details about the practice.

## Discussion of Outcomes/Results

While practice sessions may be somewhat speculative in nature, the author(s) should provide sufficient evidence of (expected) outcomes and results. This could include either assessment or evaluation data.

## Reflections of the Practitioner

This section provides the author(s) space to critically reflect on the outcomes/results and their own role in the practice, as well as offer additional insights or implications relevant to other practitioners.

## Recommendations

What are the opportunities to extend the discussion and or explore future application? The lessons learned should also connect results back to the practice topic and review of scholarship.

## References

The reference list that follows is a mock list. According to APA style, the reference list should include entries for all in-text citations. Material that was not mentioned in the narrative should be omitted from the reference list. Please include DOI information for all article references for which this information exists.
